Subject: Health & Safety and Violence in the Workplace training

The National Health and Safety Committee encourages TWU members on workplace Health and Safety committees to participate in the health and safety training offered by Telus.

Health & Safety Committee and Rep. Training is required training for Telus H&S Committee members. If you, or other members on your committee, have not yet received this training, contact your committee's Telus Safety Consultant to arrange a session.

In addition, the following course is designed to supplement committee training offered by the employer – *Violence in the Workplace*. The course number is e135315 and 135315.

Both courses are offered through Telus; one through e.learning and the other is manager-led. In both cases there is no charge to employees, however e.courses usually require a manager to verify the course.

Also, the TWU has a limited number of copies of the *Health and Safety Committees Reference Guide* still available. This handy 160-page pocket guide is published by the Canadian Centre for Occupational Health and Safety and contains a wealth of information. TWU committee members can contact safety@twu-stt.ca to request a copy.

Visit the TWU Health and Safety webpage at www.twu-stt.ca/en/health-and-safety
