Rules of the Competition

NATURE OF THE PROGRAM: The National Selection Committee is composed of professionals in the field of education and their decisions shall be final. The primary emphasis in the selection process will be on academic performance, but all factors will be given appropriate consideration including test scores, curriculum, grades, class rank and extracurricular activities that include school, community and employment.

CONDITIONS OF THE AWARD: Individuals who are awarded scholarships will have arrangements made for the payment of their education expenses after they present evidence that they have been accepted as a freshman student in an institution accredited by a regional association of colleges, or by a State Department of Education. The balance of the scholarship will be paid in installments of 2 per academic year for 4 years, except that an adjustment in the schedule of payments may be made in the case of an individual following an accelerated program that will result in a bachelor's degree in less than the normal four years. The award will be invalid and no payments made to an individual who fails to register in an approved college prior to December 1, 2023.

Grade reports will be obtained from the college or university that the student is attending. No further payments will be made to a student who fails to maintain at least a "C" average or who is placed on academic probation.

Students who are awarded other scholarships may continue to receive the *United Steelworkers A. F. Kojetinsky Memorial Scholarship*. In all cases, however, the institution the student is attending will be informed of the nature and the amount of the scholarship awarded by the United Steelworkers.
