TO ALL MEMBERS OF LOCAL 1976 AT AMERICAN AIRLINES IN TORONTO

Brothers and Sisters,

Two weeks ago, we sent a communication about the CAWU approaching our members and trying to convince our members to change over to them. Our leadership came to the station for 2 days to engage with the YYZ members and had positive conversations. The purpose of the meeting was to meet with everyone and explain to all the members what the real consequences are when you decide to change a Union. We were happy that everyone was transparent and some even said that changing Unions was something they were convinced to do but we can see that after these conversations over numerous members decided to revoke their membership card from CAWU. This is an amazing start to demonstrate to CAWU that we don't make empty promises but actually deliver the facts and realistic expectations. We are pleased to see that solidarity within the membership is strong especially considering that bargaining is 2 weeks away. For any members that still had doubts, it is never too late to complete a revocation form. The form should be sent to djalbert@usw.ca. The QR code is available on the Union board and if you need don't see it, please reach out to Kurtis McGibbon and our team of Union Reps for any additional information. We will continue to talk to our members and answer any questions they may have.

In Solidarity,

Manny D'Souza- VP/FST USW Local 1976
