Keep Your Pension Strong with USW

NOWU's Pension Lie

- NOWU lied to you about creating a new pension.
- NOWU has never put a pension together and has zero pension experts on staff.

Don't Risk Your Pension or Your Future

- You've spent years contributing to and building your Pension Plan.
- It's part of your collective agreement, negotiated by TC Local 1976 USW.
- Your Pension Plan has had solid growth and compares well to other plans.
- If Canpar bargaining unit members leave the USW, you will no longer be active participants in your Pension Plan.
- And that could mean more risk, higher fees and less security for you.
- Let's stay strong together and keep building our union's strength.

You Have Security with Your Union – TC Local 1976 USW

- Proud local union of the **United Steelworkers** – one of Canada's strongest and most-diverse unions.
- **Deep experience in the transportation sector.**
- Backed up by **Steelworkers' experts** in pensions, health and safety and legal representation.
- **A new action plan** in place to boost democracy and communication with you – the members.

Ed Stroud Recently retired from London

I appreciate the hard work and dedication of the United Steelworkers Pension Plan trustees. When I applied for my funds, I was told that our plan regularly out-performed similar plans. I would not have been able to retire early if it wasn't for the TC Local 1976 USW Pension Plan.
