### WORKING TO PROTECT YOU FROM CREDIT FRAUD

We are writing to you about the recent letter to all employees from Canpar regarding the ransomware cyber-attack on Canpar's systems.

In this letter, Canpar advised employees that their private information may have been compromised.

TC Local 1976 USW has voiced significant concerns about this issue. We are pushing Canpar for more information and for enhanced protections in respect of your personal data.

Canpar has offered two (2) years of credit protection with Equifax. TC Local 1976 USW has advised the company to revise this offer by adding more years of protection.

But in the meantime, we urge you to take advantage of this protection as soon as possible. Registration is a very simple process and can be arranged online using the link in the letter that all members received from Canpar.

The company took two months before admitting to the breach, so we strongly recommend that you verify your credit card statements and other banking information from August 19 to the present date, in order to make sure that there have been no suspicious activities.

Finally, because this ransomware attack may have significant implications for our members and for the company itself, we think it is imperative that the company immediately enhance and improve its data and internet security. We also insist that the union and all Canpar bargaining unit members be informed immediately about any new developments in this regard.

Please be assured that we will keep you informed of any future developments. If you have any questions, please don't hesitate to contact us at: 1-866-925-5952 or [info@1976usw.ca](mailto:info@1976usw.ca)

In Solidarity,

TC Local 1976 Executive
