## Health and Safety Committee Members Meeting

Meeting open @9:03AM MST

Present:

- Erin Zuchotzki
  - Dave Smith
  - Jon Grdic
  - Peter Aligianis
  - Annie Daignault
  - Todd Schulstad
- 
- EZ opens meeting and goes over general rules of conduct.
  - EZ turns floor over to Annie Daignault.
  - AD - the purpose of having National meetings over zoom is to have dialogue with all Local H&S reps. Please check in with your reps to promote engagement.
  - Check with reps to see if the dates and times work for them to attend the zoom meetings.
  - Want to share the results from the National H&S meeting which occurred on August 21, 2024.
  - Survey was sent out again, with minimal results. Please follow up with your reps and ask them to fill out the survey and send back. The first item is to communicate with the members.
  - During the National meeting we asked the company to send all H&S minutes from each terminal so we can look at what is being reported each month, in each terminal. A reminder that issues must be brought to the local meetings first and foremost. If the issue is not dealt with, bring to the National Committee members (AD, EZ, DS) to be discussed at the next National H&S meeting. If it is of a serious matter, bring to our attention immediately. Do not hesitate.
  - EZ – we will look at further training for active members through USW, when available locally. Will bring this up with the Executive for confirmation on a case-by-case basis.
  - DS – when filling out the H&S walk around sheets, please remind your members to put name and terminal number for easier reference.
  - AD – when the National meeting minutes are received, send to all H&S reps and ask to have them posted.

Meeting end at 9:29 AM MST

Next meeting scheduled for November 23, 2024.
