**RETIRED FROM THE JOB,  
 NOT FROM LIFE**

As one door closes on a person's working life, another door opens.

The new retiree looks out on a scene providing familiar, but challenging opportunities.

Welcome to Steelworkers Organization of Active Retirees – S.O.A.R. 11-4. Your first year dues are paid by Local 105.

Please join us the first Thursday of each month starting at 1:30 p.m. at the U.S.W. Local 105 union hall. Spouses, significant others and any one with common interests are encouraged to come with you. Our next meeting is February 7, 2019.

S.O.A.R. meetings are a chance to share information and draw on experience with Arconic benefits, Social Security, and other issues new retirees are presented with, such as Medicare reimbursement from the company. We work community projects together and are always open to new ideas. Refreshments are always provided. Please come and reconnect with old friends and make some new friends.

**WE LEARN FROM EACH OTHER**

These vehicles are made in the United States or Canada by members of the UAW and Canada's Unifor union, formerly the Canadian Auto Workers. Because of the integration of vehicle production in both countries, all of the vehicles listed as made in Canada include significant UAW-made content and support the jobs of UAW members.

However, vehicles marked with a single asterisk (\*) are also produced in Mexico. Vehicles marked with a double asterisk (\*\*) are produced in Mexico and Canada. All Cruze hatchbacks and some sedans are produced in Mexico. The diesel version is manufactured in the United States by UAW members. The Chevrolet Equinox is manufactured in Canada by Unifor members and also in Mexico.

Beginning in mid-2019, all heavy-duty Chevrolet Silverados and GMC Sierras will be built in Flint, Michigan, only. In early 2019, the light-duty, regular cabs of both trucks will be produced in Mexico only.

When purchasing a vehicle marked with an asterisk, it's important to check the Vehicle Identification Number (VIN). A VIN beginning with "1" or "4" or "5" identifies a U.S.-made vehicle; a "2" identifies a Canadian-made vehicle; a "3" identifies a vehicle made in Mexico. Not all vehicles made in the United States or Canada are built by union-represented workers. Vehicles not listed here, even if produced in the United States or Canada, are not union made.
