As Hereinafter Defined

ARTICLE I **PREAMBLE**

- 1.01 This Agreement governing wages, rates of pay, hours of employment, and other conditions of employment is between Pilkington North America, Inc. (hereinafter called the Company) and the United Steel, Paper & Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO, CLC, on behalf of its Rossford, Local 9G (hereinafter called the Union).
- 1.02 Use of the masculine gender in this Agreement should also be considered feminine.

ARTICLE II **RECOGNITION**

- 2.01 The Union is recognized during the life of this Agreement as the sole collective bargaining agency for all production and skilled trades employees who are employed at the Company's plant located in Rossford, Ohio, excepting supervisors, process technicians and clerical employees not directly connected with production.
- 2.02 The Company recognizes and will not interfere with the right of its employees to be members of the Union. There shall be no discrimination, interference, restraint, or coercion by the Company or any of its agents against any employee because of membership in the Union. The Company will not reclassify employees or duties or occupations or engage in any subterfuge for the purpose of defeating or evading the provisions of this Agreement.
- 2.03 During the life of this Agreement, the Company will not enter into any contract with any employee or group of employees, or with any other employees' organization in the plant above named which would supersede the provisions of this Agreement.
- 2.04 The Company agrees to continue the present practice of cooperating with the Union to the best interest of both parties.
- 2.05 Membership in the Union (the only requirements for which shall be payment of an initiation fee and regular dues of one and sixty-five one hundreds (1.65%) of the employee's gross earnings, including vacation pay) on or after the thirtieth (30th) day following the beginning of employment or the effective date of this Agreement, whichever is the later, shall be a condition of employment. During the first thirty (30) days of employment, the Union will undertake to secure the voluntary membership of the employees. After thirty (30) days of employment, the Union may notify the Plant Management in writing of any employee who has not become a member. The Company

will immediately undertake to secure the voluntary membership of such employee and will terminate the employment of any employee who, within fifteen (15) days after the notice, has not paid an initiation fee and regular dues of one and sixty-five one hundreds (1.65%) of his gross earnings (including vacation pay).

- 2.06 Each and every month the Company will deduct the Union dues, including initiation fees, from the wages for whom the Union has presented to the Company a written Check-off Authorization Card executed by the employee and in its proper legal form. The amounts so deducted shall be promptly remitted by the Company each month to the International Secretary /Treasurer of the United Steel, Paper & Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO, CLC. The Company shall remit any and all amounts so deducted to the International Secretary/Treasurer with a completed summary of USWA Form R -115, or its equivalent. A copy of the referenced information in this section shall be sent to the USW Sub-1 area office.

In doing so, the Union shall have the newly hired member complete a United Steelworkers (USW) authorization form which authorizes payroll deductions for union dues and initiation fees. Withholding will begin immediately upon receipt of the authorization form and effective the first day of the pay period in which the employee reaches their thirty (30) days of employment, or effective the first day of the pay period of the next regular scheduled payroll if the authorization form is received after the thirty (30) days of employment.

All monthly membership dues, assessments and initiation fee amounts shall be designated by the International Secretary /Treasurer of the Union in accordance with the constitution of the International Union.

The Union will indemnify and save the Company harmless against any and all claims and liabilities arising out of the fact that the monies so collected for the Union dues and initiation fees from an employee's pay are remitted to the Union in accordance with this agreement.

- 2.07 With respect to employees who have not voluntarily authorized the Company to make such deduction, whenever any such employee fails to pay one initiation fee (applicable only to new employees) or dues of one and sixty-five one hundreds (1.65%) of his gross earnings, including vacation pay, the Union will notify the Plant Management in writing, specifying these items of indebtedness. Subject to any applicable legal requirements, the amount of the foregoing deductions may be changed by action of the Local or the International Union. The Company will immediately undertake to induce the employees to pay voluntarily such indebtedness to the Union, and if at the expiration of fifteen (15) days after this written notice, such indebtedness has not been paid, the Company will terminate the employment of such employee.
- 2.08 Effective when, as and if the appropriate courts rule conclusively that such action may be taken in conformity with the Labor-Management Relations Act of 1947, as amended or effective when, as and if the Labor-Management Relations Act of 1947, as amended, has been repealed or amended so that there is no longer any legal prohibition, with respect to employees who have not voluntarily authorized the deductions, as set forth in Exhibit A, whenever any such employee owes the Union a reinstatement fee not

exceeding \$2.00 for three (3) months' default in regular dues, or \$10.00 for four (4) months' or more default in regular dues, the Union may notify the Plant Management in writing, specifying these items of indebtedness. The Company will immediately undertake to induce the employees to pay voluntarily any such indebtedness to the Union as may accrue on or after the date of the conclusive court ruling or the effective date of the said repeal or amendment of the Labor-Management Relations Act of 1947, as amended, and if, at the expiration of fifteen (15) days after written notice from the Union, such indebtedness has not been paid, the Company will terminate the employment of such employee.

- 2.09 The Company will deduct Political Action Committee (PAC) contributions for active employees who have submitted authorization for such deductions from their wages. Such deduction authorizations shall be on a form acceptable to the Company and shall be promptly remitted monthly to the Secretary-Treasurer of the USW PAC Fund. The deduction will be effective with the next available payroll.
- 2.10 The Company shall allow the Union to conduct a one (1) hour orientation during working hours for newly hired bargaining unit employees during the first week of employment.

ARTICLE III **NEGOTIATIONS**

Such visits to the plant must be prearranged with the department head and conducted so as to avoid interference with the operation of any departments. The Company may designate someone to accompany these representatives on such visits. The Company, through plant officials, will provide plant passes in such a manner that no representative of the Union shall be inconvenienced when he wishes to make such a visit. Such visits need not be confined to any certain part of the plant and may be extended to other departments.
- (f) In discussing complaints or grievances with the Management, the President or representative of the employee or the Industrial Relations Committee shall have the right to call in any employee from the department affected, if by so doing it may be possible to better explain conditions affecting the operations under discussion.
- (g) Officers or representatives of the Local Union who are employees of the Company will be afforded time off from their work to assist in the work of the Industrial Relations Committee or executive affairs of the Union, as may be required, provided that arrangements for such time off shall first be made with the Plant Management to avoid interference with the plant operation. All conferences between these representatives and the Plant Management which must be held at the plant during regular working hours shall be without loss of earnings to any employee.
- (h) The President of the Local Union shall, upon receiving the complaint and after investigating the same, either take up the grievance or dispute directly with the department head or refer it to the Industrial Relations Committee for its consideration and disposition with the Plant Management.
- (i) Representatives of the Company will meet with the Industrial Relations Committee once a month for the purpose of reaching a fair and impartial adjustment of all grievances and complaints of employees represented by such Committee, and the Company will not discriminate against any employee or grievance person (committee person) in handling or attempting to adjust complaints. Representatives of the Company will meet with the Industrial Relations Committee operating in the plant for the purpose of adjusting emergency grievances or complaints. The purpose of these meetings shall be to discuss and adjust, if possible, all general disputes or complaints, but only such individual complaints as may be referred to the Industrial Relations Committee by the department grievance person (committee person) because of his inability to adjust the grievance through direct dealing with the supervisor or superintendent of the department. Minutes shall be kept of all meetings between the Plant Management and the Industrial Relations Committee.

- (j) The Union or Company will furnish to the opposite party not later than forty-eight (48) hours before a scheduled Industrial Relations Committee meeting a written agenda of the grievances to be taken up at that meeting.
- (k) The Plant Management will in all cases investigate complaints or suggestions and endeavor to make satisfactory adjustments promptly. In the event of failure to adjust any complaints or grievances, it shall be referred to the International President of the Union, or his representative duly designated by him to the Company, who shall take the matter up with the Executive Management of the Company.

The Company will provide in writing, the answers to any complaints or grievances within ten (10) business days after a meeting at this step.

- (l) The International President of the Union or his representative and the President of the Local Union shall have access to the plant in order to contact foremen, employees or members of the Industrial Relations Committee on matters pertaining to this Agreement. Such visits to the plant must be prearranged with the department head and conducted so as to avoid interference with the operation of any departments. The Company may designate someone to accompany these representatives on such visits. The Company, through plant officials, will provide plant passes in such a manner that no representative of the Union shall be inconvenienced when he wishes to make such a visit. Such visits need not be confined to any certain part of the plant and may be extended to other departments.
- (m) In discussing complaints or grievances with the Management, the President or representative of the employee or the Industrial Relations Committee shall have the right to call in any employee from the department affected, if by so doing it may be possible to better explain conditions affecting the operations under discussion.
- (n) Officers or representatives of the Local Union who are employees of the Company will be afforded time off from their work to assist in the work of the Industrial Relations Committee or executive affairs of the Union, as may be required, provided that arrangements for such time off shall first be made with the Plant Management to avoid interference with the plant operation. All conferences between these representatives and the Plant Management which must be held at the plant during regular working hours shall be without loss of earnings to any employee.

5.02 If a grievance or dispute under the terms, provisions or sections of this Agreement cannot be adjusted amicably through the grievance procedure as outlined in Paragraph 5.01, either party may submit the grievance or dispute for final and binding decision by an Arbitrator selected as follows:

- (a) Either party desiring to use the arbitration procedure shall transmit a notice to the opposite party, by registered mail, return receipt requested, within thirty (30) calendar days after receipt of the Step 4 written answers covering the dispute or grievance.

- (b) The Company and the Union shall request the Federal Mediation and Conciliation Service to submit a list of seven (7) qualified arbitrators. After receiving the list of seven (7) qualified arbitrators, the Company and the Union shall, within fifteen (15) days after receipt of the list of the arbitrators, select the Arbitrator. Each party shall alternately strike a name from the list of seven (7) qualified arbitrators until one name remains unstruck. The Arbitrator shall be the last name on the list. A coin toss between the parties shall determine which party shall strike the first arbitrator.
 - (c) The Arbitrator shall decide the grievance or dispute in writing and deliver a copy or copies to each party within thirty (30) calendar days from the date of his appointment, unless the parties agree to extend this time.
 - (d) The Arbitrator shall not change or modify this Agreement or have any authority in the making of a new agreement. He shall have authority to arbitrate only such wage rates, bonus rates and values, or incentive rates as involve change in method or new operations or new or changed jobs arising during the period of this Agreement.
 - (e) Either party who appoints a representative shall pay his fees and expenses. The fees and expenses of the Arbitrator and all costs of the hearing shall be divided equally between the parties. The fees and expenses of technical assistance required by the Arbitrator shall be apportioned by the Arbitrator.
- 5.03 In view of the foregoing, it is understood that there shall be no strike, sit-down, slowdown or work stoppage during the life of this Agreement, nor shall any officer or official of the Union assist or encourage any strike, sit-down, slowdown or work stoppage during the life of this Agreement. If any employee or group of employees represented by the Union should violate the intent of this paragraph, the Union through its proper officers will promptly notify the Company and such employee or employees, in writing, of its disapproval of such violation. The Company will not engage in any lockout during the life of this Agreement.
- 5.04 It is understood that both parties will resort to the grievance procedure as set forth herein, and neither shall have the right to resort to the courts with respect to matters required to be arbitrated under this Agreement, unless the other party defaults in its obligation to resort to the grievance procedure, including arbitration, or fails to abide by the Arbitrator's valid decision or decisions.
- 5.05 It is understood that both parties will comply with arbitration decisions as promptly as possible. Arbitrators' decisions, or other settlements of grievances, will ordinarily be retroactive to the date the specific grievance was filed, provided that the grievance was properly processed through the grievance procedure, but in no event earlier than twelve (12) months prior to the date of the arbitration submission or the date of settlement in the grievance procedure.
- 5.06 The parties may extend the time limits as outlined above by mutual agreement.
- 5.07 The Company retains the right to discharge, suspend, or otherwise discipline all employees: but no employee will be discharged, suspended or otherwise disciplined without just cause, and any such employee shall, at the time of his discharge, suspension or other discipline, be given the reason, therefore, in writing. If the

investigation proves any injustice has been done, the Management will revoke said discharge, suspension, or other discipline and will reinstate said employee and compensate him at his regular rate for any earnings lost. The department representative will be furnished with a copy of the written notice of discharge, suspension or other discipline, at the same time it is given to the employee. The Local President shall be furnished with a monthly list of such discharges, suspensions or other discipline.

- 5.08 Any corrective action for performance and or attendance shall be issued to the employee within ten (10) calendar days from the date the company was made aware of the incident. The company will notify the Union President within ten (10) calendar days if an extension is needed.

ARTICLE VI **SENIORITY**

- 6.01 Departmental seniority and competency shall entitle employees to first consideration for promotion as opportunity shall offer and, in the manner, indicated by department promotion schedule. Inter-plant and inter-departmental seniority is not recognized, except as hereinafter provided. When a number of employees are considered as competent for promotion, seniority shall determine. In the reduction of forces and reemployment, seniority shall determine. If disagreement exists in any case of promotion, discharge, layoff or reemployment, the case may be handled as a formal complaint in the manner herein before provided.
- 6.02 When an operation requires specially trained production employees, they shall be employed, retained, or rehired, when conditions demand, regardless of other factors involved. Whenever a situation arises that makes necessary the use of the above, steps shall be taken promptly to correct the matter so that regular employees may be used.
- 6.03 The seniority of any employee is determined by the length of their service, computed in years, months, and days from the first date of their continuous employment. Time lost through disciplinary action, sickness or layoff shall not be deducted from employee's seniority records. Any regular employee hired after April 30, 1995, who is laid off prior to accumulating two (2) years of seniority, shall have recall rights by seniority for a period of two (2) years from the date of his last layoff. Any regular employee who has two (2) or more years of seniority as of the date of his last layoff shall maintain recall rights for a period equal to the length of his seniority, or five (5) years, whichever is less.

Employees who go out on extended sick or accident leave will maintain their seniority for a period of two (2) years at which time their employment will be considered terminated.

- 6.04 Layoffs and leaves of absence shall not affect seniority standing, except as provided in Paragraph 6.02 above. When a leave of absence is granted in accordance with established leave of absence procedures negotiated with the Local Union, an employee shall not lose his seniority rights. Leaves of absence shall be recorded in the employment records.
- 6.05 Probationary employees shall not accumulate seniority, but if and when such probationary employees become regular employees, they shall be given seniority credit for all time worked as probationary employees. Probationary employees are new

employees placed in a department for a period of four hundred and forty (440) work hours, after which they will be classified as regular employees or be dismissed as having failed to qualify for the duties required of them.

- 6.06 Any employee, upon being laid off due to shutdown, or reduction of forces, shall be responsible for keeping his address current with the Human Resources Department or appropriate HRIS system. The Company will furnish the Local Union with a list of all addresses and will furnish to the Local Union quarterly a list of addresses of new employees and of all changes in addresses of which it has been advised by the employees. In the event of recall, the Human Resources Manager shall notify each such employee, in his turn by the most convenient method. A copy of each such recall shall also be sent to the President of the Local Union. Upon direct or written contact, the employee will have 72 hours or until 5:00 p.m. of the third (3rd) workday from such contact, whichever is longer, to indicate acceptance or refusal of the recall. Saturdays, Sundays and holidays will be excluded, unless it is indicated to the employee that the Human Resources Department of the plant will be open on those days. If an employee accepts a recall, they must report for work within and not more than seven (7) calendar days from the date of their acceptance. Failure to comply with any of the requirements of recall will result in the termination of the employee and the forfeiture of all of their seniority rights. If an employee on laid-off status to the street is recalled while on sick leave, they will be recalled on paper and will remain on sick leave until released by their physician, pursuant to 6.03. The Company will keep a record of these transactions. Service records and employment lists shall be open to inspection to the Local President of the Union.
- 6.07 Employees who voluntarily quit or are discharged for cause shall be considered as new employees if again employed by the Company.
- 6.08 Full seniority status shall be retained and accumulated by employees while acting as full-time officers or employees of the Local Union or as full-time officers or employees of the International Union, or as full-time national officers or employees of the American Federation of Labor - Congress of Industrial Organizations. When requests are made in writing to the Company by the President of the International Union, leaves of absence shall be granted to employees who are employed full time by the Union, and seniority shall accumulate during such leaves. The Company shall not be obligated to have in effect at any time more than three (3) such leaves of absence and may specify that application shall be made for annual renewals of such leaves, which will be granted upon application.
- 6.09 Any employee elected to public office in the Government of the United States or any State or to full-time public office in the government of any county or of any city shall be granted a leave of absence for the period of his first term of active service in such elective office. Additional leaves of absence for service in any such elective office shall be granted upon written application by the employee. Full seniority status shall be retained and accumulated by any such employee during the period of any such leave of absence.
- 6.10 A complete seniority list of all employees will be posted in each department on the bulletin board within fifteen (15) days after the signing of this Agreement and shall be revised quarterly. This list will be available to all employees at all times.

ARTICLE VII
PROMOTION SCHEDULE

- 7.01 A mutually satisfactory promotion schedule shall be set up and posted in each department by the Management of the plant, showing the steps of promotion employees will follow, provided they are qualified in accord with the foregoing paragraphs.

ARTICLE VIII
TEMPORARY TRANSFER OR
RETURN TO FORMER JOB
OR DEPARTMENT

- 8.01 Any employee who is directed by the Company to be transferred from one job to another, or to another department, or is promoted, may resume his status quo with accumulated seniority in his former department or previous job, in the event of layoff from such new job or failure to qualify in the new department or job. The Company recognizes that the purpose of this section is to acquire a needed skill and will use this section for that purpose only.
- 8.02 Employees taken from their regular work temporarily to perform other duties paying a lower rate shall receive their regular rate. Employees assigned to work paying a higher rate shall receive the higher rate. Employees taking work voluntarily when their regular work is not available will receive the rate for the work to which they are assigned.
- 8.03 In making a temporary transfer, the Company agrees to ask the senior qualified employee and assign the junior qualified employee if all senior qualified employees decline the transfer. An employee transferred from their regular work for more than three hundred and sixty (360) working hours shall be paid an additional fifty cents (\$0.50) per hour for all hours worked in the transferred job beginning on the three hundred and sixty-one (361) hour.

ARTICLE IX
DEPARTMENTAL TRANSFERS

- 9.01 Any employee wishing to transfer from one department to another may make application in writing to the Human Resources Department. The Company shall place the applicant on a list in accordance with his plant seniority. After the transfer is affected, an employee who is not satisfied may return to his former department within ten (10) working days and will return to his former position. Employees at the last step of the Progressive Discipline Procedure will be bypassed until their record meets acceptable standards, at which time they will be eligible for the next opening.

ARTICLE X
COMPLAINTS AGAINST DISCHARGE OR SUSPENSION

- 10.01 Rules with respect to canceling records of disciplinary actions from employee records are covered under local agreements for absenteeism and progressive discipline.

ARTICLE XI
REEMPLOYMENT PROCEDURE

11.01 Layoff lists will be maintained by department seniority and by plant seniority. In the case where a department needs more employees and there are no employees on that department layoff list, the oldest employee in point of service on the plant seniority list shall have first consideration, but in the event such employee cannot qualify, he shall be notified of the reason for his not being placed on the job.

ARTICLE XII
RECALL OF EMPLOYEES

12.01 The Company will not call an employee to work when no work is available except in a situation beyond its control, such as cancellation of orders, or breakdown, or other situations for which the Company cannot be fairly blamed. The Company assumes no responsibility for individuals voluntarily appearing for work in the hope that work may be available. Should an employee be ordered to report for work and does report, and there is no work available, such employee shall receive four (4) hours of pay at his average hourly earned rate for his last preceding pay period.

ARTICLE XIII
EMPLOYMENT AT OTHER PLANTS

13.01 The Company's obligation to offer employment at a new plant to employees, in the bargaining unit working or laid off from other plants, is limited to the following amounts:

1. Until the number of applicants who have accepted employment at the new plant equals twenty-five percent (25%) of the original manning at the new plant, or
2. The list of applicants has been exhausted, whichever occurs sooner.

The new plant will determine the qualifications for all jobs, will establish such skills, aptitude and other tests as the Company considers necessary.

ARTICLE XIV
LAYOFFS

14.01 In the case of layoff or the voluntary quitting by an employee, three (3) workdays' notice shall be given by the Company or the employee, as the case may be. In either of such cases, the employee shall be paid in full within fourteen (14) calendar days after the expiration of such three (3) workdays' notice. It is understood that this paragraph does not apply to layoffs caused by emergencies.

14.02 If it is known at the time of layoff or shutdown that the layoff or shutdown (including vacation shutdown) will exist for fourteen (14) days or less, there shall not be any displacement allowed and the affected employees will be laid off to the street.

14.03 In case of partial departmental layoffs, when a specific skill is required to work, the most senior qualified person in the affected department will be allowed to work until such time as a more senior employee who wishes to be trained can be trained.

- 14.04 In the event that a reduction of forces or a recall to work from layoff should become necessary, with the exception of the Maintenance, plant-wide seniority shall determine which employees are to be laid off or recalled. Layoffs or recalls within the Maintenance Department will be by department seniority. Employees affected by a layoff will have the opportunity to utilize their plant seniority and bid on vacancies provided they are able to perform the job or bump the least senior employee. If a production operation requires specially trained persons, less senior employees who would otherwise be laid off may be retained or recalled until a more senior person can be trained to fill the position.
- 14.05 Voluntary layoffs may be offered at the Company's discretion.

ARTICLE XV
WAR CLAUSE

- 15.01 The Company agrees to comply with all requirements of and insure that all employees covered by this Agreement are granted all rights provided for under all federal and state legislation and/or regulations in effect during the term of this Agreement relating to or regarding veteran's reemployment rights, and retention and/or accrual of seniority rights relating thereto. In accordance with locally-negotiated leave of absence procedures, the Company will grant leaves of absence for education purposes under and in accordance with the G.I. Bill of Rights to returned veterans who were regular employees of the Company prior to joining the Armed Forces.

ARTICLE XVI
REPAIRS AND CONSTRUCTION

- 16.01 Before a Company decision is made to hire an outside contractor to perform non-routine maintenance or new construction work, the Company will consider the following:
1. Do our Skilled Trades employees have the necessary qualifications to perform the work involved?
 2. Due to the normal workload of our Skilled Trades employees, can they perform the work within the time period required for completion of the work involved?
 3. Can the work be performed by our Skilled Trades employees within the competitive bid prices of outside contractors?
 4. Does the Company possess the necessary equipment to perform the work involved?

After consideration of the above points, if the Company determines the work involved should be accomplished by an outside contractor, then the Company will notify the Union and discuss its decision prior to letting the contract, except in cases where an emergency exists and time is of the essence. In these discussions the Company will give due consideration to any Union proposals to perform the work with Pilkington employees if the above four criteria can be met.

- 16.02 On tank repairs, the Union and the Company shall meet and discuss the manning requirements for the tank repair.

- 16.03 In situations where the Company considers it desirable to employ its own maintenance employees in construction work in conjunction with contractors' employees, the Union and the Company are to negotiate and agree as to whether or not such employees while so engaged are to be paid at a temporary adjusted rate.

ARTICLE XVII
WAGES

- 17.01 All hourly wage rates of employees within the collective bargaining unit as agreed upon shall be signed and become a part of this Agreement and shall remain undisturbed for the life thereof, except in change of method or new operation. In that event, the matter will be discussed with the Industrial Relations Committee and other representatives in the plant or department affected and a mutually satisfactory adjustment reached.
- 17.02 Wages will be paid every two weeks by electronic fund transfer to a savings and/or checking account of the employee's choice. Deposit amounts will be credited to the employee account and will be available on the Friday following the prior week pay period. Any employer pay discrepancy resulting in a pay error owed for the pay period will be correct and direct deposited in the employee's account on the following off-cycle pay date if requested. Any employee pay error will be paid on the following regularly scheduled pay date.
- 17.03 The Company will furnish the Union with copies of the rate classifications covered by this Agreement.
- 17.04 The Company will furnish the Local Union with the hours and earnings by pay periods of the hourly employees within the collective bargaining unit, and of hourly supervisors who are paying dues to the Union.

ARTICLE XVIII
HOURS AND OVERTIME

- 18.01 A normal work week shall be forty (40) hours in non-continuous operations and an average of forty-two (42) hours in continuous operations. No employee, except as herein otherwise provided, will be required to work more than forty (40) hour in any scheduled work week, nor more than eight (8) hours in any twenty-four (24) hour period, without the payment of overtime.
- 18.02 Employees working hours in excess of the present normal eight (8) hour day will not be required to take time off to keep within the forty (40) hour week.
- 18.03 Whenever employees work on a Saturday, they shall be compensated at one and one half (1-1/2) times their normal rate of pay for Saturday.
- 18.04 This Article 18 shall not affect in any way Management's right to schedule hours of work and the scheduled work week so as to avoid penalty payments. When two (2) or more penalty payments might be applicable to the same hours of work under this or other sections of this Agreement, only the highest will be paid. In no case will penalty payments be duplicated or pyramided.

- 18.05 Overtime shall be compensated at one and one-half (1-1/2) times the normal rate of pay.
- 18.06 A holiday, as specified in Article 21.01 and any vacation scheduled, shall be counted for overtime purposes as a day worked.
- 18.07 Employees may be required to work beyond their normally scheduled shift in cases of plant or weather emergencies. No employee will be allowed or required to work more than sixteen (16) consecutive hours. If an employee works sixteen (16) consecutive hours, the employee will not be allowed to return to work until he has been off work for not less than eight (8) hours. Saturday overtime for Assembly will be posted on the Wednesday before by 12:30pm. Any Sunday overtime for Assembly will be posted on the Thursday before by 12:30pm. Any forced overtime scheduled with less than twenty-four (24) hours' notice will be paid at double (2) times the normal rate of pay.

To be eligible for such payments, an employee must furnish the payroll department with a written statement from the appropriate public official listing the dates he received pay for jury duty. This payment is included in the computation of premium pay, overtime pay, holiday pay, vacation pay, or other penalty payments.

This provision as to minimum hours of work per week may be waived for any department upon the written request of the local Industrial Relations Committee.

A transfer for this reason is not to be considered a violation of the promotion schedule.

25.03 The physical examination of employees following layoff and sickness shall not be used as a guise to discriminate against any employee. Rossford Local Agreements

LOCAL AGREEMENT
ATTENDANCE POLICY

Pursuant to the Supplemental Agreement – Other Agreements, dated July 2, 2003, the Rossford, Local 9G and the Rossford Plant Management agree, as follows:

Regular attendance and punctuality are conditions of employment which must be observed in order to prevent working hardship on fellow employees and the Company. If you find it necessary to be absent, you must call the attendance line before the beginning of your shift. The main gate will serve as a back up to the attendance line. Notification prior to the beginning of the shift allows arrangements to be made to re-assign (re-align) your work.

1. Absences will be charged as full occurrences. Each day missed will count as one absence and one occurrence.
 - a. This includes any mandatory or voluntary overtime for which an employee has been scheduled.
 - b. The employee will only be charged one occurrence if the overtime shift is scheduled within the same workday as their current shift and they miss both shifts due to illness.
2. Late starts (less than ½ the scheduled shift) will be charged as a half occurrence (more than ½ the scheduled shift) will be charged as a full occurrence.
3. Home Early (must work ½ scheduled shift) will be charged as a half occurrence. (Less than ½ the scheduled shift) will be a full occurrence.
4. Missed Punches (5 excused in a 12-month rolling period) will be charged as a half occurrence.
5. Improper Call-Offs – will be charged at one half occurrences. (Improper Call-Off is failure to call-off prior to start of shift but calling within first 2 hours of shift).
6. Absences, Late Starts, Early Quits, Missed Punches and Improper Call-Offs will be combined and continue to be recorded on a twelve (12) month rolling period (e.g. add a new day and remove the oldest day); the procedure will be as follows:
7. When an employee reaches level of six (6) or more unexcused occurrences, discipline will be triggered. The level of discipline will depend on the employee's discipline record on absenteeism. Employees move to the next level of discipline any time unexcused occurrences reach or exceed the level of six (6), (whole occurrences).
8. In cases where an employee calls off or arrives within the first one (1) hour of their scheduled shift, they will be charged with either a tardy, late call, or absence, but not a combination of any two.
9. In the event an employee is forced to change shifts and there is supportive evidence that he has a previously scheduled appointment (doctor, dentist, etc.), he will be permitted to keep his appointment and will not be charged an attendance point for keeping his previously scheduled appointment.

The parties agree to discuss attendance issues as needed in the Oversight Committee meetings.

	Length
First Step – Written warning and counseling.	<u>Active</u> 6 months
Second Step – 2 nd Written Warning	6 months
Third Step – Final Written Warning	1 year
Fourth Step – 7 unpaid calendar day suspension	1 year
Fifth Step – Termination	

Notification of Absence or Tardiness

Employees must call prior to the start of the shift. Absences and tardiness must be reported to the attendance line. Employees must report the absence each day unless the employee is on an approved leave. An employee on an approved leave must keep the plant apprised of the status of their leave as indicated by the appropriate leave policy.

Failure to report for work or call an absence into the attendance line for a period of three consecutive scheduled shifts will result in termination of the employee's employment, unless the Company receives satisfactory proof that extenuating circumstances prevented the employee from reporting off.

Policy

Given the variety of circumstances for an employee's absence, no attempt will be made to accept, reject or otherwise judge the reason given for an absence that is charged as an occurrence. The exception to this shall be that two (2) occurrences (maximum of three (3) days) and two (2) occurrence (maximum of one (1) day) may be used during the rolling twelve (12) month period and will be excused given a valid doctor's excuse, providing the employee submits the doctor's excuse to the Medical Department within 24 hours upon return. Any of the four (4) notes during the rolling twelve (12) month period can be used for the employee or other than self with proper documentation.

This type of policy assures consistency and fairness in application because all absences are counted without regard to circumstances, or the individuals involved. Examples of excused absences, when properly authorized, are as follows:

- Bereavement Leave (3 days in state – 5 days out-of-state)
- Jury Duty
- Military Leave
- Family Medical Leave
- Workers Compensation Injuries
- Political Office (if designated by State Law)

- Union Business
- Pre-approved Leaves of Absences

The facility will communicate to its employees through posting and other appropriate means that their Company provided property and their personal property on the Company premises are subject to search.

ROSSFORD FLOAT PLANT
SUPPLEMENTAL AGREEMENT
WORK SYSTEM

In order to ensure the future profitability and success of the Company as well as protect the security and prosperity of all employees, Pilkington North America (hereinafter referred to as the "Company"), and the United Steel, Paper & Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union AFL-CIO, CLC on behalf of its Rossford, Local 9G (hereinafter referred to as the "Union") do hereby agree to define the way work is done at the Rossford plant as follows:

I. TEAM STRUCTURE

Groups of employees on each shift/crew will work together as a total team sharing tasks required to operate the plant to meet customer requirements. Employees on the team will be assigned to perform required tasks using the three simple criteria that follow:

1. Safe: The task to be performed must be safe, not exposing anyone to undue hazard or risk of injury.
2. Structured: The task must have a defined method for being performed, and the employee must be properly trained to perform it.
3. Sensible: The task to be performed should make appropriate use of the particular employee's skills and qualifications.

If an employee is asked to perform a task that they feel is not safe, the following acts should be taken:

1. Respectfully decline and explain why they feel it is not safe.
2. Notify the supervisor of the details of the situation along with suggestions, ideas and recommendations for implementing safe work practices.

Once a task has been determined to be unsafe, Management and Union Leadership will evaluate the task and take appropriate action(s) to ensure that the task can be performed safely in the future, or not at all. The evaluation of any determinations will be posted on appropriate bulletin boards throughout the plant.

Both parties understand and agree that the team structure must operate with very high levels of flexibility, cooperation and employee participation in decision making. Supervisors and managers will work with the teams consistent with the guidelines above, while retaining the ultimate responsibility and authority for crewing decisions.

The Rossford Plant is organized into the following three groups:

1. The Manufacturing Group – Employees performing the tasks associated with the production and handling of glass, subdivided into the Hot End Core Area, Coating Core Area, and the Cold End Core Area.
2. The Maintenance Group – Employees working in the electrical or mechanical or dual Trade core areas to maintain plant operations.

Employees will use their plant seniority to bid to specific shifts or crews in their core area. They will then submit task preferences as determined in each area for assignments they wish to perform within that core area of their team. For bidding purposes, employees will then use their seniority and skill assessment to determine their task preferences in a core area. Within each core area, all employees in that core area will be required to qualify on specific required skills in order to work on that team. In addition, employees may be required to qualify in other skills in order to maintain the proper skill mix within that team. The Company and the Union Committee will meet to determine the number of employees who will be required to qualify in each skill area within each team and to, limit the number of employees who can qualify in specific skill areas within each team. Should the Company and Union not agree, the Company may implement the number of employees who will be required to qualify in each skill area within each team and to limit the number of employees who can qualify in specific skill areas within each team.

II. TRAINING AND DEVELOPMENT

Enhancing the skill levels and qualification of all team members is perhaps the most critical factor to the success of the Work System. Every employee must have the opportunity to develop his/her skills in various areas of the operations. The Company will ensure employees receive training and assessments from acceptance of training within ninety (90) days per assessment.

There are methods to objectively assess the level of qualifications of team members. A structured system for assessing and certifying qualifications is in place and will be improved from time to time, based on business needs. To facilitate the qualification process, a specific training plan will be in place for each task. The Union Committee will be provided a copy of the training plan for each task. The employee being trained will also be provided a copy of the training plan for the task. An employee will be allowed to accept training on two (2) tasks, but only one (1) of those tasks can be a level 3.

III. SKILL-BASED PAY PLAN

The Work System includes a Skill-Based Pay Plan to improve the overall skill base and reward team members for the application of these skills at work. Changes in customer requirements or technology may require a change or modification of the skills in different core area levels.

All assessments must be passed at 100%. The employee will have four (4) opportunities to pass the assessment. The employee will have two (2) weeks between testing to improve their knowledge base. An employee will be provided with Union representation during the 4th assessment.

- All increases are effective the first Sunday following successful completion of the assessment.

1. Probationary Employees – Level 1 Cold End Skills

New employees working during the 440 hour probationary period will receive orientation and training to familiarize them with plant operations and Company policies and procedures, as well as specific training in areas such as safety, quality, and Total Productive Maintenance. Effective June 30, 2024 the starting rate of pay for new employees will be \$20.06. Effective June 29, 2025 the starting rate of pay

for new employees will be \$20.87. Effective June 28, 2026 the starting rate of pay for new employees will be \$21.70.

Probationary employees will be given training in a variety of areas to determine their suitability for a position at the Rossford plant. At the end of the 440 hour probationary period the employee will move to the effective post-probationary wage rate.

This Level 1/Basic Cold End Skills Block shall include the following tasks:

- Basic Total Productive Maintenance
- Packaging Operations
- Basic Safe Vehicle Operation Including Fork Truck
- General labor tasks

2. Level 2 Cold End Skills

Upon successful completion of the Level 1/Basic Cold End Skills Block, employees may then progress to either the Level 2 Cold End Skills, Level 2 Hot End Skills, or Level 2 Coating Skills. Upon successful completion of the entry level tasks as listed below, the Company will select employees from the training log in accordance with seniority to train on the following tasks.

<u>Tasks</u>	<u>Entry Level Tasks</u>
Advanced Vehicle Operations	Basic Forktruck operations
Shipping Dock Operations	Advanced Vehicle Operations
Spotter Operations	Shipping Dock operations
Stacker Operations	Level One/Basic skills
Full Bay 5 Operations	Advanced Vehicle Operations
Quality Spot Check	Level One/Basic Skills

After one (1) year of continuous service as a qualified advanced vehicle operator (forklift operation/inventory control and/or utility trucker/shift support) there will be a one time increase of \$.25 to the employee's base pay rate effective upon the ratification of the Labor Agreement. The employee must maintain the bid to remain eligible for the increase. The maximum wage rate cannot exceed maximum level 3 wage rate in the cold end.

An employee selected by the Company for training in the area(s) shown above, will be offered the training opportunity within three (3) months of completing their probationary period. If the employee believes the training is not adequately provided the matter will be brought forth to the Oversight Committee.

Upon successful qualification on each of the Level 2 Cold End Skills, the employee will receive the indicated pay rate as shown on the Float Wage Table located on page 23, added to their base wage.

Employees who transfer to Float Cold End from Rossford Assembly must qualify in the Level 1 Basic Cold End Skills in order to remain in this department.

Current employees wishing to become dual skilled will be allowed to take the hiring test. In event the employee is unable to pass the test, the employee will not be permitted to take the test a second time:

- for a period of one (1) year or

- until the employee can provide a certificate from a technical school showing successful completion of appropriate training courses.

Based on business needs, there may be times when there is an opportunity for hourly union employees to take on a leadership role with a particular work group or in a particular area.

- These employees will be selected for these positions through a process that includes all of the following:
 - Seniority
 - Testing
 - Qualifications

- This is a working position, and these employees will continue to work on their regularly assigned tasks in addition to the 1st Operator responsibilities.
- Employees seeking these positions will be provided with a listing of the 1st Operator duties and responsibilities for the work group or area to which they are applying. Listed below are requirements that apply to all 1st Operators.

The Company and Union agree that this position will be paid \$1.30 per hour over the employee's existing pay rate.

As business and customer needs change and new technology becomes available, the need for employees with specialized advanced skills may arise. As these situations occur, the Company and Union agree to work through the Oversight Committee to develop a format and pay rate for these skills however, Management reserves the right to determine how many employees need to have these skills based on business needs.

IV. ROTATION OF ASSIGNMENTS AND REFRESHER TRAINING IN QUALIFIED SKILLS

The Company and the Union understand and agree that this Work System cannot function effectively without some system of job rotation. Employees must be regularly rotated between assignments in order to keep their skills current, and to perform the various tasks for which they are being compensated. Therefore, a system mutually developed by both parties that allows for periodic performance of qualified skills needs to be part of the daily movement system. This system must ensure that production employees are given the opportunity to perform all Skill Level Three (3) tasks during the course of their normal shift rotation.

If any employee has not had the opportunity to perform the above identified qualified skill for a period of greater than three (3) months because of absence restrictions or lack of opportunities, then the employee may be required to take a refresher training and/or assessment and/or demonstrate proficient ability in the skill to a trainer and/or immediate supervisor.

V. SENIORITY

Both parties fully recognize the important role that seniority has played in the past and will continue to play into the future. Likewise, both parties understand that a strict seniority-based system for making day-to-day job assignments will not allow employees enough opportunity to upgrade and refresh their skills, nor provide the Company the flexibility required to maximize efficiency and productivity. Therefore, the use of seniority will continue as one criterion in making assignment decisions and will prevail as long as the business needs of the operations are met. Some examples of situations where seniority would not prevail are:

- The job rotation system requires someone to get refresher training
- Employees require the opportunity to qualify on a task to achieve movement under the Skill Based Pay Plan
- The mix of qualifications on a crew/shift requires assignment contrary to seniority in order to maintain production
- Team openings that occur during the course of the shift

Employees who are reporting to work on coverage shift will use their seniority, based on their task preferences, to fill the assignments required to operate the shift. Vacancies occurring during the first two (2) hours of the shift, which will need to be filled for the balance of the shift, will be filled in the same manner, except that no employee will be moved from his number one task preference unless he/she is needed to perform work because of qualifications. Vacancies arising after the first two (2) hours of the shift, which need to be filled for the balance of the shift, will be filled by a qualified employee

available to perform the assignment, while making the minimal number of personnel moves and will thoroughly be explained to the union.

In a case where more than one employee desires the opportunity to receive training on a given task or assignment, seniority will be used to allow the employee with the most service time to get the training opportunity first. Employees at the last step of the Progressive Discipline Procedure will be bypassed until their record meets acceptable standards at which time, they will be eligible for the next training opportunity.

Employees at the last step of the Progressive Discipline or Attendance Procedure cannot transfer to the Hot End and will be bypassed until their record meets acceptable standards at which time, they will be eligible for the next transfer opportunity.

In a case where it becomes necessary to limit the numbers of employees that can be provided training opportunities and thereby Skill Based Pay Level progressions, seniority will be used to determine which employee or employees will receive the opportunity for progression.

VI. CREW/SHIFT SCHEDULES

The Company agrees to consult with the Union in advance of the shift change implementation in order to gain insight regarding employees' preferences on various schedule options.

VII. MOVEMENT AND ASSIGNMENT PREFERENCES

In lieu of creating and posting the traditional promotion schedule, the parties agree to track and make available to all employees a schedule containing the seniority standing of all employees, their qualification status, their task assignment preferences, and their preferences for future training opportunities. This schedule will be used to guide supervisors and employees in determining day-to-day job assignments and in allocating training resources and opportunities.

Each core area within the plant (Float Cold End, Float Hot End, Float Coating and Maintenance) will participate in a core area bid that will commence within sixty (60) days of contract ratification. There will be a second bid during the term of this agreement effective January 2026.

Vacancies on a given shift/crew that occur during the course of the term of the bid will be filled by allowing employees on all crews in the core area to bid to the vacancy by plant seniority. Department bids for openings will not be done more than bi-weekly or when business needs dictate. An employee at the last step of the Progressive Discipline Procedure will be bypassed until their record meets acceptable standards at which time, they will be eligible for future bid opportunities.

It is also understood that the parties agree that employees in the Maintenance Group may be assigned to assist production employees in the performance of some traditional production tasks, such as assisting with production changeovers, changing windows, etc. Such assignments will be of short duration, most frequently in conjunction with maintenance work in process. However, there may be times when maintenance employees will work in production tasks for short duration to meet urgent business requirements.

Both parties recognize the need to keep a proper skill balance on each of the crews/shifts. Additionally, Management reserves the right to assign or retain employees on a specific shift or crew, based on seniority, qualifications and the needs of the operations.

VIII. QUALIFICATION DECISIONS

Decisions on whether an employee has successfully qualified on a task needs to be a joint Union/Management decision to the extent possible. Therefore, input on the status of employee qualifications will be gathered from the employee being trained (through assessment) from the trainer conducting the training, and from the employee's immediate supervisor. The final qualification decision will rest with the employee's department manager with input from the employee's Union representative.

IX. OVERSIGHT COMMITTEE

The role of this group will be to monitor the operation of the system to ensure that the letter and the spirit of this agreement is upheld. It will also be the role of the committee to maintain a conduit for employees to have input regarding the functioning of the Work System and to resolve disputes should they arise. The Oversight Committee will be made up of the Union Bargaining Committee and an equivalent a number of Rossford management representatives, including the Plant Manager. This group will be co-chaired by the Plant Manager and the Union President. Either co-chair may request a meeting to address any issues or present recommendations.

X. APPLICATION AND MODIFICATION OF AGREEMENT

Because of the fact that this Agreement represents a fundamental change in the nature of how the workplace will operate, it is recognized that many of the concepts contained herein may not be fully developed. It is also understood that there will likely be many issues or points of contention that will surface which are not now foreseen by either party. Much like the workplace of the future, this Agreement must therefore remain flexible enough to accommodate those issues into the future.

As a consequence of the foregoing, either party may request discussions to consider modification of or addition to this Agreement. Such modifications or additions will be submitted in writing to the opposite co-chair forty-eight (48) hours in advance of the meeting and will be included in the agenda for the meeting. It is agreed that neither party will unreasonably withhold agreement to enter into such discussions and will participate in such discussions in good faith.

In the event that any provision of this agreement is inconsistent or in conflict with any provision of the current Labor Agreement, the provisions of this agreement shall take precedence over and supersede those provisions of the prior Labor Agreement.

This Agreement will serve as a supplement to and a part of the General Labor Agreement between the parties and will continue in effect for the duration of the current Labor Agreement, effective June 29, 2024, to June 29, 2027.

**ROSSFORD ASSEMBLY DEPARTMENT
SUPPLEMENTAL AGREEMENT
NEW WORK SYSTEM**

In order to ensure the future profitability and success of the Company as well as protect the security and prosperity of all employees, Pilkington North America (hereinafter referred to as the "Company"), and the United Steel, Paper & Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union AFL-CIO, CLC on behalf of its Rossford, Local 9G (hereinafter referred to as the "Union") do hereby agree to define the way work is done at the Rossford Assembly Department as follows:

I. TEAM STRUCTURE

Groups of employees on each shift will work together as a total team sharing tasks required to operate the department to meet customer requirements. Employees on the team will be assigned to perform required tasks using the three simple criteria that follow:

1. Safe: The task to be performed must be safe, not exposing anyone to undue hazard or risk of injury.
2. Structured: The task must have a defined method for being performed, and the employee must be properly trained to perform it.
3. Sensible: The task to be performed should make appropriate use of the particular employee's skills and qualifications.

If an employee is asked to perform a task that they feel is not safe, the following acts should be taken:

1. Respectfully decline and explain why they feel it is not safe.
2. Notify the Supervisor immediately of the details of the situation along with suggestions, ideas and recommendations for implementing safe work practices.

Once a task has been determined to be unsafe, Management and Union Leadership will evaluate the task and take appropriate action(s) to ensure that the task can be performed safely in the future, or not at all. The evaluation of any determinations will be posted on appropriate bulletin boards throughout the plant.

Both parties understand and agree that the team structure must operate with very high levels of flexibility, cooperation and employee participation in decision making. Supervisors and managers will work with the teams consistent with the guidelines above, while retaining the ultimate responsibility and authority for crewing decisions.

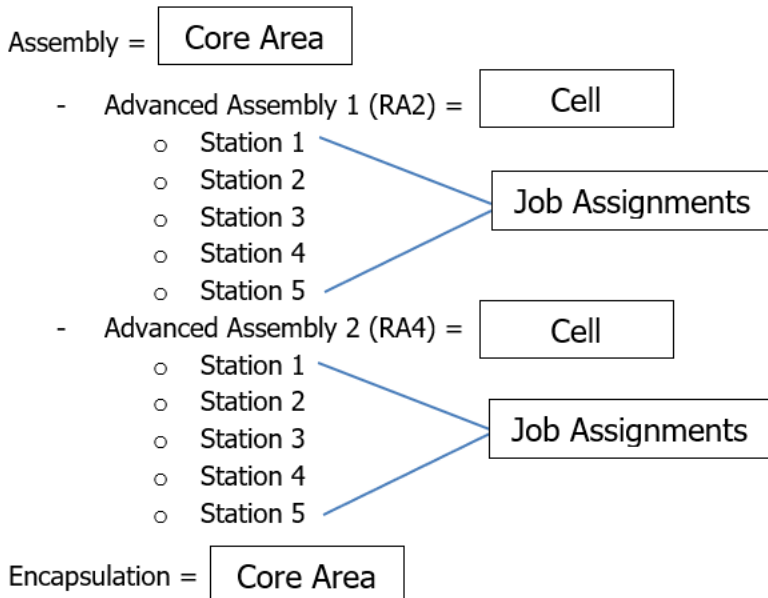

The Rossford Assembly plant is organized into the following core areas:

1. The Manufacturing Group – Employees performing the job assignments associated with the production and handling of glass in the Assembly, Encapsulation, Trucking and Support functions.

Listed below are the Rossford Assembly work system definitions:

- Core Area – the primary production areas within the plant. (Assembly, Encapsulation, Support and Trucking)
- Cell – within each core area there are multiple assembled products.
- Job Assignments – are all stations/areas associated within the Cell.

Example

Employees will use their plant seniority to bid to specific shifts in a core area within a cell. Within each core area, all employees will be required to qualify on all job assignments within the cell in order to work on that team. The Company and the Union Committee will meet to determine the number of employees who will be required to work in each core area. Should the Company and Union not agree, the Company may determine the amount of employees within each core area.

Wages:

Employees will only be paid Assembly Operator, Encapsulation Operator, Cell Lead, or Process Tech/Tooling Tech pay rates when they hold an Assembly Operator, Encapsulation Operator, Cell Lead, or Process Tech/Tooling Tech bid or when they actually work an Assembly Operator, Encapsulation Operator, Cell Lead, or Process Tech/Tooling Tech. In cases where there are no available bid openings on any shift, that an employee is eligible to bid to, they will retain their wage. If an opening becomes available that an employee is qualified for, on any shift, the employee will be required to bid to that opening, or they will not retain their wage.

II. TRAINING AND DEVELOPMENT

Enhancing the skill levels and qualification of all team members is perhaps the most critical factor to the success of the Work System. Every employee must have the opportunity to develop his/her skills in various core areas of the operations. The Company will ensure employees receive training within sixty (60) days of acceptance of the bid. After completion of training it is the responsibility of the employee to request an assessment.

There are methods to objectively assess the level of qualifications of team members. A structured system for assessing and certifying qualifications is in place and will be improved

from time to time, based on business needs. To facilitate the qualification process, a specific training plan will be in place for each job assignment. The Union Committee will be provided a copy of the training plan for each job assignment. The employee being trained will also be provided a copy of the training plan for the job assignment.

Disqualification Process for Cell Leads and Process Tech/Tooling Tech:

- Employees holding this position must maintain accepted standards for safety, attendance, performance and discipline. Management reserves the right with documentation, to disqualify employees who do not maintain these standards.
- If for any reason, an employee is medically disqualified or disqualified by the Company, that employee has the right to exercise their seniority within the department, other than that of another position at their current level or above.
- The employee may not bid to another position at their current level for six (6) months.

Basic Skills Desired and Classroom Training Information

As business and customer needs change and new technology becomes available, the need for employees with specialized advanced skills may arise. As these situations occur, the Company and Union agree to work through the Oversight Committee to determine the advanced skills required, however, Management reserves the right to determine how many employees need to have these skills based on business needs.

III. ASSESSMENT PROCESS

All assessments must be passed at 100%. The employee will have four (4) opportunities to pass the assessment. The employee will have two (2) weeks between testing to improve their knowledge base. An employee will be provided with Union representation during the 4th assessment.

- All increases are effective the first Sunday following successful completion of the assessment.
- Once an employee has passed a Cell Lead or Process Tech/Tooling Tech assessment, they are then frozen in the bid position nine (9) months from the date of awarded bid unless it is an opportunity for advancement or to the exact cell on a different shift.

Probationary Employees – Basic Skills:

New employees working during the 440-hour-probationary period will receive orientation and training to familiarize them with plant operations and Company policies and procedures, as well as specific training in areas such as safety, quality, and Total Productive Maintenance.

1. Operators:
Upon successful completion of the probationary period employees may then bid to an open position that their seniority will hold. They will be eligible for an increase once they have successfully passed the assessment associated with that of Assembly Operators or Encapsulation Operators.
2. Assembly/Encapsulation Operators:
Upon successful completion of the probationary period employees may then bid to an open position that their seniority will hold.
3. Cell Lead:
Upon successful qualification of an Assembly/Encapsulation Operator Assessment,

employees are then qualified to bid to Cell Lead vacancies based on the selection process below for that specific vacancy. (Exception is the Support Bid where an Assembly Operator bid may not be defined).

They will be eligible for an increase once they have successfully passed the assessment associated with that Cell Lead bid.

1st Assessment in Cell Lead position must be completed within 60 days of start of training.

This is a working position and these employees will continue to work their regularly assigned duties in addition to the Cell Lead responsibilities for the core area to which they are applying.

Listed below are the requirements that apply to all Cell Lead Positions:

- Must pass the assessment before pay is adjusted.
- Must ensure plant safety and housekeeping guidelines are adhered to.
- Must support the continuous improvement process, team concepts and act as a facilitator for the team.
- Must recognize sub-standard production performance and product quality. Variances to standard will be accurately reported in a timely manner and corrective actions will be taken.

V. ROTATION OF ASSIGNMENTS AND REFRESHER TRAINING IN QUALIFIED SKILLS

The Company and the Union understand and agree that this Work System cannot function

effectively without some system of job rotation. Employees must be regularly rotated between assignments in order to keep their skills current, and to perform the various duties for which they are being compensated. Therefore, a system mutually developed by both parties that allows for periodic performance of qualified skills needs to be part of the daily movement system.

If any employee has not had the opportunity to perform the above duties for a period of greater than three (3) months because of absence restrictions, lack of opportunities, or technical changes in the skill block, then the employee may be required to take a refresher training and/or assessment and/or demonstrate proficient ability in the skill to a trainer and/or immediate supervisor.

VI. SENIORITY

Both parties fully recognize the important role that seniority has played in the past and will continue to play into the future. Likewise, both parties understand that a strict seniority-based system for making day-to-day job assignments will not allow employees enough opportunity to upgrade and refresh their skills, nor provide the Company the flexibility required to maximize efficiency and productivity. Therefore, the use of seniority will continue as one criterion in making assignment decisions and will prevail as long as the business needs of the operations are met. Some examples of situations where seniority would not prevail are:

- The job rotation system requires someone to get refresher training.
- Employees require the opportunity to qualify on a job assignment to achieve movement.
- The mix of qualifications on a crew/shift requires assignment contrary to seniority in order to maintain production.
- Team openings that occur during the course of the shift

Employees who are reporting to work on coverage shift will use their seniority based on their bids to fill the job assignments required to operate the shift. Vacancies occurring during the first two hours of the shift, which will need to be filled for the balance of the shift, will be filled in the same manner—except that no employee will be moved from his bid unless he/she is needed to perform work because of qualifications. Vacancies arising during the last six (6) hours of the shift, which need to be filled for the balance of the shift, will be filled by a qualified employee available to perform the assignment, while making the minimal number of personnel moves and will thoroughly be explained to the union.

In a case where more than one employee desires the opportunity to receive training on a given assignment, seniority will be used to allow the employee with the most service time to get the training opportunity first. Employees at the last step of progressive discipline will not be allowed to train at Cell Lead or Process Tech until their record meets accepted standards. At this time, they would be eligible for the next available training opportunity.

In a case where it becomes necessary to limit the numbers of employees that can be provided training opportunities, seniority will be used to determine which employee or employees will receive the opportunity for progression.

VII. SHIFT SCHEDULES

The Company agrees to consult with the union in advance of the shift change implementation in order to gain insight regarding employee's preferences on various schedule options.

VIII. MOVEMENT AND ASSIGNMENT PREFERENCES

In lieu of creating and posting the traditional promotion schedule, the parties agree to track and make available to all employees a schedule containing the seniority standing of all employees and their qualification status. This schedule will be used to guide supervisors and employees in determining day-to-day job assignments and in allocating training resources and opportunities.

Rossford Assembly will participate in an area bid that will commence within sixty (60) days of contract ratification. Another bid will be offered in January of 2026.

Vacancies on a given shift that occur during the course of the term of the bid will be filled by allowing employees to bid to the vacancy by plant seniority. Department bids for openings will be done Bi-Weekly or when business needs dictate. An employee must meet acceptable standards for safety, and their progressive discipline record may not exceed a final step. An employee will be bypassed until their record meets acceptable standards at which time they will be eligible for future bid opportunities

Both parties recognize the need to keep a proper skill balance on each of the shifts. Additionally, Management reserves the right to assign or retain employees on a specific shift or crew, based on seniority, qualifications and the needs of the operations.

IX. QUALIFICATION DECISIONS

Decisions on whether an employee has successfully qualified on a job assignment needs to be a joint Union/Management decision to the extent possible. Therefore, input on the status of employee qualifications will be gathered from the employee being trained (through assessment) from the trainer conducting the training, and from the employee's immediate supervisor. The final qualification decision will rest with the employee's department manager with input from the employee's Union representative.

X. OVERSIGHT COMMITTEE

The role of this group will be to monitor the operation of the system to ensure that the letter and the spirit of this agreement is upheld. It will also be the role of the committee to maintain a conduit for employees to have input regarding the functioning of the Work System and to resolve disputes should they arise. The Oversight Committee will be made up of the Union Bargaining Committee and an equivalent number of Rossford management representatives, including the Plant Manager. This group will be co-chaired by the Plant Manager and the Union President. Either co-chair may request a meeting to address any issues or present recommendations.

XI. APPLICATION AND MODIFICATION OF AGREEMENT

Because of the fact that this Agreement represents a fundamental change in the nature of how the workplace will operate, it is recognized that many of the concepts contained herein may not be fully developed. It is also understood that there will likely be many issues or points of contention that will surface which are not now foreseen by either party. Much like the workplace of the future, this Agreement must therefore remain flexible enough to accommodate those issues into the future.

As a consequence of the foregoing, either party may request discussions to consider modification of or addition to this Agreement. Such modifications or additions will be submitted in writing to the opposite co-chair forty-eight (48) hours in advance of the meeting and will be included in the agenda for the meeting.

It is agreed that neither party will unreasonably withhold agreement to enter into such discussions and will participate in such discussions in good faith.

In the event that any provision of this agreement is inconsistent or in conflict with any provision of the current Labor Agreement, the provisions of this agreement shall take precedence over and supersede those provisions of the prior Labor Agreement.

This Agreement will serve as a supplement to and a part of the General Labor Agreement between the parties and will continue in effect for the duration of the current Labor Agreement, effective June 29, 2024 to June 29, 2027.

SUPPLEMENTAL AGREEMENT – OTHER AGREEMENTS

Pilkington North America (hereinafter referred to as the “Company”) and the United Steel, Paper & Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO, CLC on behalf of its Rossford Local 9G (hereinafter referred to as the “Union”) do hereby agree as follows:

All agreements, local or otherwise, made by the parties must be specifically given contract status in order to be deemed valid. Only valid agreements can be considered enforceable under Article V of the Labor Agreement. All other agreements (excluding overtime), practices, or understandings, absent contract status, cannot be enforced through the parties’ contractual grievance and arbitration procedures.

In order for any agreement to be considered a valid agreement with contract status, such agreement must explicitly so state, and bear the signatures of a representative of the International Union, and an Officer of the Company or the Company’s Director of Human Resources.

Any pre-existing agreements, practices, or understandings not revised during these negotiations, or by June 29, 2024, to be consistent with this Agreement will be considered invalid.

This Agreement serves as a supplement to and a part of the parties’ General Labor Agreement, and will continue in effect for the duration of the current Labor Agreement.

It is very clearly recognized that the full involvement and support of the plant leadership and of all Rossford employees will be vital to the successful implementation of Operating Excellence. Therefore, it is further agreed the Local Union and Management will meet to establish mutually acceptable implementation guidelines within 30 days of ratification of a new labor agreement. Such implementation guidelines will govern the day-to-day operation of this process and the introduction of new concepts.

This Supplemental Agreement and the General Agreement and all other Supplements to the General Agreement constitute a complete agreement with respect to all issues between the parties in these negotiations.

(b) "Pension Plan" means the Pension Agreement between the parties dated January 14, 1950, as amended.

(c) "Layoff" means a layoff from a plant within the bargaining unit because of a reduction of forces and shall not include discharge, suspension for disciplinary reasons, lack of work because of a strike, work stoppage, or other labor dispute, or lack of work because of the inability of the Company to operate one or more of its plants due to war, disaster, or acts of God.

(d) "Recall" means an offer of employment by the Company which the employee is not entitled to refuse under the then existing practices and agreements under the labor agreements.

3. An application for severance payment shall be filed by an employee in writing on forms provided by the Company and shall be deemed to be filed when it is received by the Company.

4. The amount of severance pay for an employee making application on or after May 1, 1995, shall be determined by multiplying two hundred dollars (\$200.00) by a number which is two less than the number of years of his continuous service under the Pension Plan at the time of his layoff. Name of Plan: Severance Pay Plan for Hourly Employees

Benefits are paid from the Company's general assets.

(b) ERISA Rights

As a participant in the plan, you are entitled to certain rights and protections under the Employee Retirement Income Security Act of 1974 (ERISA). ERISA provides that all Plan participants are entitled to:

Examine without charge, at the Plan administrator's office (Employee Benefits Department, 811 Madison Avenue, Toledo, OH) and at other Company locations, all Plan documents, including insurance contracts, and copies of all documents filed by the Plan with the U.S. Department of Labor, such as detailed annual reports and Plan descriptions.

Obtain copies of all Plan documents and other Plan information upon written request to the Plan administrator. The Plan administrator may make a reasonable charge for the copies. (A duplication charge of \$.25 per page is made for these copies).

Receive a summary of the Plan's annual financial report. The Plan administrator is required by law to furnish each participant with a copy of this summary annual report.

In addition to creating rights for Plan participants, ERISA imposes duties upon the people who are responsible for the operation of the Employee Benefit Plan. The people who operate your plan, called "fiduciaries" of the Plan, have a duty to do so prudently and in the interest of you and other Plan participants and beneficiaries. No one, including your employer, or any other person, may fire you or otherwise discriminate against you in any way to prevent you from obtaining a Plan benefit or exercising your rights under ERISA.

If your claim for a benefit is denied in whole or in part, you must receive a written explanation of the reason for the denial. You have the right to have the Plan administrator review and reconsider your claim.

Under ERISA, there are steps you can take to enforce the above rights. For instance, if you request materials and do not receive them within 30 days, you may file a suit in a federal court. In such a case, the court may require the Plan administrator to provide the materials and pay you up to \$100 a day until you receive the materials, unless the materials were not sent because of reasons beyond the control of the Plan administrator. If you have a claim for benefits which is denied or ignored, in whole or in part, you may file suit in a state or federal court. If it should happen that Plan fiduciaries misuse the Plan's money, or if you are discriminated against for asserting your rights, you may seek assistance from the U.S. Department of Labor, or you may file suit in a federal court. The court will decide who should pay court costs and legal fees. If you are successful, the court may order the person you have sued to pay these costs and fees. If you lose (for example, if it finds your claim is frivolous), the court may order you to pay these costs and fees.

If you have any questions about your Plan, you should contact the Plan administrator. If you have any questions about your rights under ERISA, you should contact the nearest Area Office of the U.S. Labor-Management Services Administration, Department of Labor.

(c) Appealing a Claim Denial

If all or part of your claim is denied, Pilkington or the entity responsible for administering the Plan will explain the reason for the denial and the steps to be taken if you wish to appeal. You may, within 60 days after receiving this notice, request a review of the denial. This request should be in writing to the Human Resources Department.

You will receive a full and fair review and, within 60 days of your request for review, you will be advised in writing about the outcome of the review. The Plan administrator has the final authority in resolving questions about any benefits under these plans.

The fiduciary determining the employee's eligibility for benefits and the construction of the Plan's terms shall have the power to exercise his discretion in the construction of doubtful, disputed or ambiguous terms or provisions of the Plan, in cases where the Plan's instruments are silent, or in the application of the Plan's terms or provisions to situations not clearly or specifically addressed in the Plan.

All decisions made within the scope of the fiduciary's authority shall be final and binding upon all persons, including the Company, all participants and beneficiaries, their heirs and personal representatives and all labor unions or other similar organizations representing participants. All such decisions, if subject to judicial review at any time, shall be subject to an arbitrary and capricious standard of review.

(d) Modification and Discontinuance of Benefits

Pilkington North America reserves the right to modify, amend or terminate any and all of the benefits and other features of the Severance Pay Plan, subject to any collective bargaining obligation.

This Supplemental Agreement and the General Agreement and all other supplements to the General Agreement constitute a complete agreement with respect to all issues between the parties in these negotiations.

MEMORANDUM OF AGREEMENT
TRANSFER OF WORK

NSG Group/Pilkington North America, Inc. (hereinafter referred to as the "Company") and the United Steel, Paper & Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO,CLC (hereinafter referred to as the "Union"), hereby agree as follows:

1. The Company agrees to give the Union sixty (60) days prior written notice of, and further agrees to negotiate in good faith concerning, any decision regarding adding new capacity which will transfer work out of the present bargaining unit plants covered by the General Labor Agreement, and which will result in partial plant closing(s) or plant closing(s) ("transfer work"). Notwithstanding the Company's above-identified agreement, the Union recognizes the Company's right to transfer work, and further acknowledges that failure of the parties to reach an agreement regarding the Company's decision to transfer work is not a bar to the Company exercising its right to make and implement a decision to transfer work.

2. Moreover, this Agreement shall also be construed as a clear and unequivocal waiver by the Union of its right under contract and/or law, if any such right exists, to require the Company to negotiate to agreement regarding any decision to transfer work. Notwithstanding the above, the Company retains its contractual right, as established by long past practice, to reassign work from plant-to-plant within the glass division as required to best meet the production requirements of its customers, without incurring the bargaining and notice requirements identified in paragraph one (1) above.

This Agreement is a supplement to and a continuation of the General Labor Agreement between the parties effective October 25, 1985.

Executed as of January 30, 1986, at Columbus, Ohio.

Skill Based Pay Disqualification Guidelines

The Work System includes a skill-based pay plan to improve the overall skill base and reward team members for the application of these skills at work.

In the event that an employee is unable to perform the essential functions of the job he/she may become disqualified from that task. The Company recognizes the need to help define how a disqualification may occur and have listed the below guidelines to help our employees succeed within our skill-based system. The Company maintains its rights to keep a proper skill balance on each of the crews/shifts and the rights to assign or retain employees based on the needs of the operations.

The final decision on disqualification will rest with the employee's department manager with input from the employee's Union representative.

- Management and the union will meet prior to disqualification of an employee. If it is determined that an employee is to be disqualified, management will have the right of disqualification for failure to meet job requirements. The job requirements include standards for safety. All other standards will be followed per the CBA.
- A disqualified employee will not be able to bid on the position he/she is disqualified from for a minimum of one year. If after the period of disqualification, the employee demonstrates the ability to perform the essential functions of the job through training and job assessment he/she will be able to bid the job.
- Self-disqualification may only take place in lieu of receiving a Final Written Warning or above listed in the Progressive Discipline policy.
- Self-disqualification may only occur once within an eighteen (18) month period. If disqualified, the employee's hourly wage will be reduced to the level of skills for which he/she is qualified.
- Employees that have been disqualified (self or imposed) will be able to use his/her seniority to fill an open position that the employee is qualified for. No bumping.
